

Beat the economic crisis

The crisis is here! But Inforad has the answer, we have produced a new GPS Inforad product with the same high performance like it's predecessor the K1, again it's very small and even cheaper.

Performance of our Speed camera warning system

The INFORAD K0 is size of a USB Key and is the smallest GPS Speed Camera Warning System. It's high accuracy knows your exact location when travelling (thanks to the built in GPS system, the K0 protects and warns you when entering and while in a speed camera zone).

Inforad K0: Small but Powerful

INFORAD K0 uses the same technology that has been tried and tested in the other Inforad Models, and most notably it is famous for using the SiRFstarIII for GPS Satellite connectivity.

Much smaller and lighter than it's older brother the INFORAD K1, even though smaller it does not weaken or impair in it's performance, because of it's small size it allows you to position it anywhere on the dash board.

Unbeatable Price

The K0 has been created to help everyone in the economic crisis: By streamlining the K1 version and still maintaining the high functionality. It makes the K0 the cheapest GPS warning speed camera on the market. Now everyone can afford to have there own GPS Speed camera warning system.

European Database

Like all INFORAD products, the K0 comes with a it's renowned European database and Free Life-Time updates. The Updates are available to download onto your unit using the Inforad Manger software for free at www.gpsinforad.com.

Linea Rossa by Inforad :

As with all our products from the K range, the K0 has an elegantly designed Black cover with two red non skid strips which is the signature feature from our «Linea Rossa range by Inforad».

Specifications

GPS receiver:
SiRFstarIII™

Accuracy:
Position: <10m RMS -speed < to 1Km/h

Processor:
RISC 32 bits ARM7 at 49MHz

Memory:
Processor 128Kb - RAM 8Mb

Audible alerts:
Sound

Power:
Cigar lighter adapter
Input 12/24V,
Output: 5VDC - 850mA max.

Dimensions:
Length 75mm Width 25mm
Height 10mm - Weight 20grs (o.7 oz)

Sound Alarms
